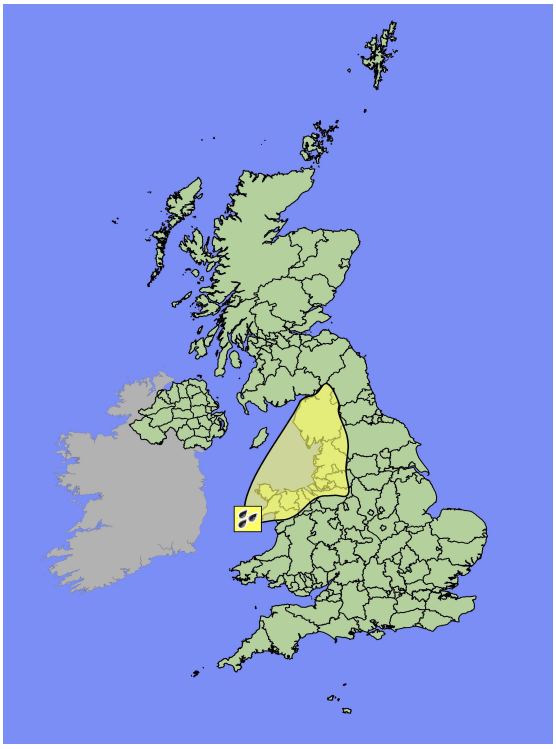
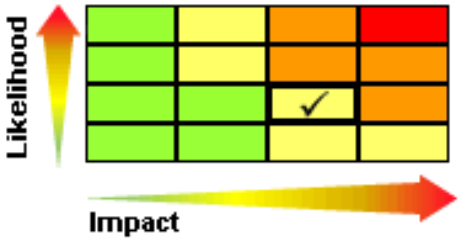
# National Severe Weather Warning Service





**Chief Forecasters Assessment**
An area of low pressure will become slow moving over the Irish Sea during Friday, with bands of heavy showers expected to affect North Wales and Northwest England. There is a risk that a few places within this area may receive as much as 40 mm of rain, falling within a few hours, which could lead to localised surface water flooding.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **08:00 on Fri, 08th Jul 2011** until **20:00 on Fri, 08th Jul 2011**

Frequent heavy showers across North Wales and northwestern areas of England may give rainfall totals of 30-40 mm in places during Friday.
